**Show Summary:** In this episode of Centering Health Equity, we are joined by Dr. Bryan Buckley, Director of Health Equity Initiatives at the National Committee for Quality Assurance and Assistant Professor at Georgetown School of Medicine. We discuss how medical schools are working to develop a curriculum for health equity and the impact this has in the effort to improve health outcomes for all. Dr. Buckley shares how students are responding to the health equity curriculum and what the implications may be for residency programs throughout the nation's health systems.
